

College

Moving forward

- No long-term future
- College felt like the only route forward
- Friends already had plans
- Didn't collect GCSEs
- Missed application deadline
- Somehow got a place
- Lived on a boat
- Worked + studied
- Finished with decent grades

University

Winging it ...

- Spent summer buying/selling bikes
- Only really knew motorbikes + bricklaying
- Not convinced I was built for uni
- Friend studied Computer Science
- Long nights on the boat → needed a change
- Didn't even like computers
- Learned as I went
