

Industry

Integral - where I really learned development

- SW Developer ~8 years
- Small company, small team
- Built server monitoring tools used worldwide
- Learned a lot, fast
- Real responsibility early
- Learned most of what I know there
- Intense, but valuable
- Long hours + pressure
 - If we didn't deliver, the company didn't earn

Priorities changed

Breaking point

- Young family
- Different priorities
- Wasn't just about me anymore
- Current situation no longer sustainable
- Needed balance and more stability
- Something had to change
