

Full circle

Things don't really go to plan, and that's fine.

- Came to Germany on a motorbike with a rucksack
- Planned 2 years to gain experience and then back to the UK
 - 2 years became 20+ years
- House, family, career, life
- Returning with a motorbike and rucksack will be difficult

What I learned

You don't need a perfect plan

- Most opportunities started before I was ready
- Confidence comes after action
- Say yes to opportunities
- Figure things out as you go
- Things make sense later
- Things rarely go to plan... and that's ok
- Trying things gets you far
- Sometimes just need to ask
- Sometimes just wing it
